PROSPECTUS

QUEEN CHARLOTTE

Coal Mining Company

Capital, - - - £30,000, IN 15,000 SHARES OF £2 EACH.

Incorporated under the British Columbia Joint Stock Companies' Act, 1859, which specially limits each Shareholder's liability to the amount of his shares.

DIRECTORS THOMAS TROUNCE, Esq., Chairman Jas. Diokson, Esq., M. D. Wm. P. Sayward, Esq. C. Hounslow, Esq.; J. B. Timmermann, Esq. C. Vereydhen, Esq.

WM. P. SAYWARD-TREASURER. BANKERS-BANK OF BRITISH NORTH AMERICA TEMPORARY OFFICES-Columbia street, New West

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthractic Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Antractic Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Francisco and other ports the discovery is one of great importance and value.

The Company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is secured (at present) by lease at the nominal rent of \$100 per annum, with the additional privilege o purchasing 1000 acres at \$1 per acre for a town site.

site.

The ccal seams, from three to seven feet in

thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2000 yards from the shores of a fine Bay and about 400 feet above the level of the sea, the construction of an easy and inexpensive tramway about one mile in length, together with a wharf of about 1/0 feet projection are all the works the Compary will require to enable them to offer coal in the markets.

kets.

The quality of the coal has been fairly tested. The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foun dries in the city of Victoria whose reports are an nexed, and declared by them to be equal if not ruperior to the best Pennsylvania Anthracite Coal

Coal

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending Shareholders, its close proximity to the coast, together with its superior quality renders it of great value; also an easy access for ressels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company s wharf.

There is a large demand for anthracite coal which has to be shipped from the Eastern State or from Europe at a great expense, the sellin price ranging according to quality from \$16 ts \$25 in some markets, in others higher; the trad to Panama and along the Pacific const will be considerable. An extensive trade will also be open with China and Japan, The naval station of England, United States of America, Franand Russia, must necessarily consume a largequantity.

quantity.

Of the 15,000 shares forming the Capital Stock of the Company 7,500 are classed A (original shares) paid up to £1, and liable to additional call of £1.

3,000 are classed B, to be issued £7,500 0 0

or, ESTIMATE OF EXPENSES.

6,000 0

Tunnel \$ 2,000
Wharf 6,500
Purchase of Land 1,000
Tramway 14,000
Rolling Stock 6,500
Contingencies 20,000

Leaving a balance of \$17,600 above the Estimated Expenses.

The 3,000 B shares are now ready for issue payable at 10s. each on application, and 10s. is 30 days, or any time of allotment.

The Works, of which the above are an estimate, are in active operation, the Company having engaged and sent forward to the mine a number of skilled workmen who are under the direction of George Robinson, Esq., for many years Superincedent of the Nanaimo Coal Mines, and it is confidently hoped that by the month of April, 1866, the mine will be fully opened, and the Company prepared to supply, Coal at their wharf.

137 For reports see pamphlet prospectus to be had at the Company's Office.

NO. 13.

ntracted or Stiff Join

ntracted or Still Joint.

All the medicines in the Leduch dispersion would barely benefit, much less cut a ground a manual barely benefit, much less cut a ground a manual barely benefit with a still joints, whicher, this invaluable of internative decettailly rule to a sepurparts twice a day, the effects will be brighted a grantly to address even enders a communal strom this fine a needy when other a care will.

Scorbatte Hamours — Scald Head and Skin Phicagoty.

the blood and its most cases the liner and stemplands are the formal as a mill. The little will smoothly restore the same and the sound of the sound

Disorders of the one complaints more benefit may be derived it twenty-four hours by adopting the following simple means than is frequently brough about in six months by any other treatment. In bad cases if the Olithment be rubbed into the small public description of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give mmediate relief. Six or eight of the Pillissh uld be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Olinimant would not be recommended unless the Proprietor was sure of its feffect. It will cure when every other means have failed, if applied immediately, and not delayed until the pata at is beyond recovery. It is swere eight in which is a promptly removed by rubbing in an anguent. Mothers should rub it into the chest of heir infants whenever there is any hourseness, ightness, or other affection of breathing.

Bad Logs, Bad Breasts.—Old Wounds, Sores and Ulcers.

Bad Logs, Bad Breasts.—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonder-int to water the effect of Holloway's Healing Gintment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifessations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rhoumatism.

Will be cured with the greatest certainty if large quantities of the Gintment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the paingiving poison which vitiates and inflames every tassed tecomes in contact with, and produces the hot, swollen, clastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the

CHRISTMAS. To-day brings forth the grave though that we are approaching the termination of another year. Evoking stronger than an other day the momory of the past, this grea and glorious holiday comes to us laden with and as well as joyous associations. It brings up to our minds more vividly than any other day in the calendar the scenes of our childhood, when the world, with all its vices and its wretchedness, was still a scaled book before us. More than any other event does count the flight of time; for every Christman like the notches in the stick of Sterne's prisoner, marks the steady onward march, and makes us feel that another year has fled, bringing us nearer and nearer to the final Let us, however, not receive the advent of this 25th of December in a sombr mood. Let us rather rejoice that we have lived to see it; and let us celebrate it in a manner fitting the occasion. As we said last Christmas so we say now. As the first day of the week is intended, besides giving rest to the weary body, to take us away from our mundane pursuits, and teach us that there is a higher and nobler destiny for man than accumulating a few gold or silver coins, so the holiday steps in to make another gap in our business vocations by turning our attention to recreation and to the cultivation of the best feelings humanity-the love of our fellows. We can not, of course, object to human industry, ingenuity, or the desire to be rich; for it is to these qualities we are indebted in a high degree for the advancement of mankind. It is to Lord Bacon, with all his material views that we are indebted for most of those great discoveries which have made man in one generation a creature more powerful than on forefathers ever dreamt of. What Watt did for steam, Bacen did for thought-he showed how it could be turned to the best advantages and the world has profited, in a worldly sense at least, by the teaching. But man has other and higher qualities than those brought out in the turmoil of every day life. To make a piece of lifeless metal do the work of a hundred or a thousand horses is no doubt a grand achievement-to live amids the splendours of wealth and luxury is a state of being coveted by most of us; yet we know that neither condition is in itself a all promotive of happiness, of peace of mind. or even of bodily health. These are the qualities, however, above all others that should be prized—the pearls above price. Without them life is at the best but a sharn and not worth a tithe of the labor devoted to its sustenance. Let us be industrious, but let us not forget that we are robbing ourselves of what money cannot buy when we ignore the softer and more genial feelings of our nature-when we look upon the day of rest and the holiday, not as regenerators of our life, spiritual as well as physical, but as blanks in our ant-like existence. The

and the 25th of December will not have come in vain.

Christmas holiday is commemorative of an

most perfect Being that ever trod the carth

it shows us the embodiment of human good

ness in Him who was the greatest of all, ye

humble; who suffered the most excruciating

torments and degradations, yet was meek

and submissive; who in all His trials and

tribulations forgot not the poor, the sick, and

the afflicted; and whose charity was so un-

bounded that He pleaded for those who were putting Him to the most shameful of deaths

Let us borrow a little of that kindness, that

gentleness, that overflowing love and that

all pervading charity which were the charac

teristics of Him who walked the earth

eighteen hundred and sixty-five years ago

THE NANAIMO ELECTION The Nanaimo election is over and the second town in the colony has emulated the acts of the first by returning to the Legisla ture a candidate pledged to union and tariff It could not have been otherwise. The politi cal necessity has forced itself on every constituency, where men have been allowed t act according to their own convictions. Mr Ring, the free port champion, has been defeated by an overwhelming majority. With all the gentleman's political faults, however, we sympathise with him. He risked a con test in a town that could not do other than reject him ; and yet it did not reject him disdainfully; for despite the learned gentleman's peculiar idiosyncracies, he has many quali ties that commend themselves to a commu nity. He has unflinching courage, and boldly faces things to the last; he has an amiabl disposition that enables him to take defeat with a good grace, and to treat the victor with becoming urbanity. Although we have done our utmost to keep Mr. Ring out of the House, as we shall always do to exclude men whose political views we believe to he unsound .- although we have said things i regard to his political demeanor that must necessarily appear harsh,-still it does no prevent our acknowledging that Mr. Ring conducted his canvass openly and honorably took no advantage of his opponent, and lef on the minds of the people of Nanaimo much more favorable impression than they had previously entertained.

SAILING OF THE PACIFIC SQUADRON .-Fortress Monroe correspondent of the New York Tribune, writing under date of November 2, says :- "The Pacific squadron, under the command of Commodore John Rogers, sailed this morning at eleven o'clock for its long, perilous voyage to the western shores of our continent. The squadron is composed o the following named vessels, all commanded by tried and experienced officers: Flagship Vanderbilt, Commander Sandford; wheel frigate Powhattan, Comd'r, Ridgely; sloop of war Tuscarora Commander Starkey; double-turreted Monitor Monadnock, Commander Bunce. These four powerful vessels, comprising the squadron, are officered and manned by the best material in the pays and have been selected with an expense. navy, and have been selected with an es-pecial care to deal with any important peoial care to deal with any important events or emergencies that may arise in coming years. No pains have been spared to make each vessel perfectly seaworthy, and their condition of a first-ruse order. The iron-clad Monadnock has very recently been thoroughly overhauled and refitted and strengthened in an efficient manner. Among the officers of the squadron little or no doubt is entertained of her ability to successfully weather the stormy portion of the latitudes they will traverse, and of the entire squadron successfully reaching. San Francisco. The weather the stormy portions of the entire squadron successfully reaching San Francisco. The squadron will necessarily be subject to various delays on the trip, which will lengthen their voyage to many weeks. At ten o'clock this morning the side-wheel frigate arrived here from Norfolk, and without anchoring, signalled to the flagship Vanderbilt, and everything being in readiness, the whole fleet got under way at eleven o'clock, and proceeded to sea, firing a parting salute. All day long it has been exceedingly stormy and foggy, and, from present appearances, looks like continuing so some time.

Pangrana—On Saturday evening an ad-

PANORAMA .- On Saturday evening an additional attraction was offered at the theatre after the exhibition of Bachelder's scenic tableaux of " Paradise Lest." A variety of prizes were distributed amongst the audience rough the means of numbered programmes which were issued to the purchaser of a ticket of admission. The presents were of more intrinsic value than is usual on such occasions, including a copy of Shakespeare. silver mounted butter coolers, vases, ivory handled knives and forks, etc., etc. The handled knives and forks, etc., etc. The house was very fairly attended, and the spectators testified their appreciation of the entertainment by frequent plaudits. A similar distribution of carefully selected gifts will take place on Tuesday evening, which will be the last night the Panorama will be exhibited in this city. All those who have not seen these artistic illustrations of Milton's great news should avail themselves of this great poem should avail themselves of this opportunity of enjoying a few hours' pleasant and rational amusement.

HOLIDAY WANTS .- Most of our tradesme during all Saturday, and up to a late hour at night, were kept very busily employed supplying customers for the holidays. The toy dealers, confectioners, jewellers, booksellers, grocers, butchers and bakers especially had quite a run upon their establishments.

CHRISTMAS PRESENTS for the coming Holidays .- New Illustrated Gift Books; Cassell's and other illustrated Family Bibles; Church Service and Prayer Books; Handwith the Best Authors; Longfellow; Tennyson; Eng. Sacred Poetry; Birket Foster's Pictures of English Landscape; Specimens of British Poets; Rafuel's Bible, with Photographs; The Parables of Our Lord; Galleries of Illustrations of various famous Poets; Illustrated Works for the young, with nursery nonsense in variety; Photographic Albums; a variety of miscellaneous books, useful, ornamental and instructive, suitable for presents to old and young. Also, Writing dances, comio sketches, sentimental ballads for presents to old and young. Also, Writing Desks and Cases; Work Boxes and Dressing Cases, Cabas and Car Cases.—To be had at Hibben & Carswell's.

SPANISH AND FRENCH CLASSES-MORE B. Deflis, Graduate of the Academie de Paris, has opened classes in Spanish and French The Spanish class meet, at 7 o'clock, p. m. on the evenings of Monday, Wednesday, and Friday; and the French class on the even nings of Tuesday, Thunday, and Saturday Friday; and the French class on the evenings of Tuesday, Thanday, and Saturday. Parties desirous of learning Spanish or French will do well to join the classes without delay, as the basis of these useful languages are laid down in the first lessons. Private lessons given if desired. Mons. B. Deffis may be found at his residence, next door to the Colonist office. Langley street.

PUFF! PUFF! FOR THE HOLIDAYS - J Brunn, ir., has received extra fine white American Dress Shirts, with Byron collars and pull bosoms; plain do. without collars and for studs. Also, fine drab and black French Cassimere Hatz, which he offers to the public at low prices, together with his large assertment of fashionable-made clothing. Naval Gold Lace Badges and Uniform Caps. ent street, next at Brunn's Store, Government street, Cleal's Restaurant, near Fort street.

DANCING CLASSES-Mrs. Digby Palmer will resume her winter evening Dancing Classes for Ladies and Gentlemen, on Wednesday and Saturday evenings, at 8 o'clock. The class for children will be held on Wednesday and Satur day afternoons, at half-past three o'clock. To school will meet at Mrs. Digby Palmer's resi dence, on Dougras street, corner of Fort street. Mr. Palmer presides at the piano-forte for both classes. Terms per month— Adults, \$5; Juveniles, \$3; Private Lessons,

LITERAL TRANSLATION-Our father who Stayeth or the above, good in our hearts (be) thy name; good thou chief among all people; good thy will upon earth as in the above. Give every day our food. If we do ill, (be) not thou very angry, and if any one evil towards us not we angry towards them. Send away far from us all evil. Good so.

CHRISTMAS CHEER-Any one who was courageous enough to brave the inclemency of the weather on Saturday night, and wade sturdily through the slush, must have been pleasantly surprised at the exhibition in the stalls of the butcher. The meat was not only abundant, but in excellent condition. The stores were full of customers and the proprietors must have been highly gratified at the tangible results of the day's business. Where all were so good it is almost invidious to draw any distinction. The establishments of Messrs. Hutchinson, Carson & Hammond, and Reynolds and Botter ill amply indicate the results of the baland for the machinery. vindicated the reputation of the Island for sound stock raising.

WITHOUT OSTENTATION .- Professor Daly, the course of the evening. Excoriator-in-Chief to the city of Victoria, has laid the patients and friends of the Royal Hospital under especial obligations this Christmas, as he did last, for the Prize Sheep of the Queen's Market—a welcome renewal of avors, as the merry times of Christmas that oring back memories to kind as well as to withered hearts, should be practically recog withered hearts, should be practically recognized, the more so when they flow in the right direction. Mr. Cleal, of Government street, has sent his annual—a monster Plumb Pudding. Mr. A. J. Welsh, of the James Bay Brewery, with the consideration of an Englishman, rolled over a cask of prime ale, which will remind those who can partake of it of "Home, sweet home!"

FATAL AFFRAY .-- We regret to learn that a settler at Cowichan came to his death last WANAIMO ELECTION. week under the following painful circumstances: It appears that two men were engaged in removing goods from a cance at Harris', on Thursday, when an altercation arose through one of them having split the cance by through one of them having split the canoe by dropping a bag of flour into it. The parties seem to have become incensed at one another and in a paroxysm of anger the man who caused the trifling accident was struck by the other on his face with a gue, from the effects of which it was said he died the next day. The deceased was an elderly man named Cooper. An inquest was to have been held on the body yesterday.

FROM NANAIMO.—The steamer Diana with the Rev. Mr. Jamieson, D. B. Ring, Esq., L. M'Clure, Esq., and a few other passengers, arrived yesterday from Nanaimo. The Diana encountered thick snowy weather on her passage up, and remained in Maple Bay during Thursday night. She started the next morning early, and reached Nanaimo a few minutes before 11 a.m. She left Nanaimo on Saturday at 4 p.m., and made very quick running to Cowichan Bay, where she stopped for the night, and started at 6 a.m. yesterday in the face of a strong sour-wester and a heavy see, against which Caulain ind a heavy sea, against which Czptair Wright's smart little vessel made excellen

sustomary Christmas raffles came off, which caused considerable amusement and goodhumored rivalry amongst the competitors for

the prizes. The valuable musical boxes at Mr. Chas. Chilovich's were won respectively by Mr. Dietrich (1); Mr. T. C. Nuttall (2); Mr. Chas. Levy, the owner, (3). At Cleal's Restaurant the first prize was allotted to No. Restaurant the first prize was allotted to No. 8, the second to 175: but we are unable to give the names as they had not been claimed when our reporter applied for the information. Amongst the fortunate throwers were Messrs. Glassey, Zinn and others.

o the Sandheads with the Light-ship, on Wednesday, hoping to succeed in mooring ner without the aid of steam, but finding the weather unfavorable he made for Burrard inlet. She reached English Bay, and was towed into the harbor yesterday, where she awaits a steamer to tow her to the Sandheads. The vessel behaved exceedingly well at sea The lamps were placed in position on Satur day, and were found to work admirably—

LADIES AND GENTS wishing to make Christmas and New Year's Gifts should call and see E. Mark's well assorted stock, comprising Watches, Jewelry of every description, Diamonds, Silver and Silver-plated somely bound Standard Poets; Half-Hours | ware, Musical Boxes and Fancy Goods, all

dances, comio sketches, sentimental ballads and humorous character songs seem to afford nfinite delight to the patrons of the establishment. A great bill is in preparation for Boxing Night," Tuesday evening.

HIGH MASS was performed at midnight at the Roman Catholic Cathedral Church. Humboldt street, and St. Louis College Church, Pandora street, in the presence of large congregations. The music by both the Choirs was beautifully impressive and was listened to with profound attention.

THE LAKE TRAFFIC. - Captain Moore is about to construct a barge, and others will have small boats and canoes ready for the early Spring traffic on Kamloops and Shuswap Lakes. Competent judges are of opinion that there will be an influx to the Big Bend mines next season of five thousand persons.

THE WEATHER-The change of weather during the last three or four days has caused the snow on the low lands to disappear rapidly. The hills in the vicinity still, however, bear a most wintry aspect. Frost again set

CHURCH SERVICES- Considerable pains have been taken by members of the congregations of Christ and St. John's Churches decorating the sacred edifices for the Christmas services.

Public Holidays .- We understand that Monday, Tuesday and Wednesday of this and the next week are to be observed as nolidays at the Public offices.

No PAPER-In consequence of this being Christmas Day, no paper will be issued from

COAL-The schooner Black Diamond arrived vesterday from Nanaimo with 100 tons

streets, was opened on Saturday night and was visited by a large number of persons in

Ecclesiastical-We understand that the Rev. Mr. Jamieson, of the Presbyterian Church has succeeded in drawing together a large congregation at Nanaimo, and purpose taking his family there to reside.

THE STEAMER ENTERPRISE, We learn, will leave for Fraser River on Wednesday morning.

THE bark Narramisic entered Esquim yesterday afternoon, having been 21 days out from San Francisco.

THE WEEKLY COLONIST for the mail steam will be published to-morrow.

THE NOMINATION.

On Friday last the nomination for candidates for the representation of Nanaimo took place a little after eleven o'clock in the court house of that town. A few minutes pre vious to the commencement of the proceedings the whistle of the steamer Diana blew, and numbers rushed down to the wharf with the dread expectation that the steamer was bringing a number of voters from Victoria in favor of Mr. Rieg. The only Victorian passenger, however, turned out to be Mr. McClure, and Mr. Cunningham's supporters breathed freely. The court house was shortly after filled, and W. H. Franklyn, Esq., presided as returning officer. The proceedings commenced by

Mr. Dunsmuir coming forward and pre-posing Mr. Thomas Choningham as a fit and proper person to represent the interests of Nanaimo in the House of Assembly of Yan-

Mr. Gordon seconded the nomination. Mr. Nicol, manager of the Coal Company hen came forward and proposed Mr. D. B

Ring.
The nomination was seconded by Mr. Sabiston of the Nanaimo hotel.

After some little time had been spent in

After some little time had been spent in Mr. Cunningham's supporters trying to get Mr. Ring to speak first and Mr. Ring's supporters calling upon Mr. Cunningham, Mr. Cunningham rose and stated that his views were already so well known that it was almost needless to repeat them. He would, however, give his political opinions in the fewest possible words. He was in favor first of a union with British Columbia—not such a union as his opponent advocated, with free ports in Vancouver Island; but a broad and thorough union with discrimina broad and thorough union with discrimina-ting import duties. This sort of union would give them free trade with British Columbia—the great desideratum —while Mr. Ring's union would create obstacles in Mr. Ring's union would create obstacles in their trade with the neighboring colony. He was warmly in favor of reciprocity with the United States, believing if they had that, the industries of Nanaimo would grow almost beyond precedent. He was in favor of the liberal measures generally that were before the country. He believed the local interests of Nanaimo had been neglected by the Government, and if he had the honor of being returned he would pledge himself to look earnestly after these. The speaker then alluded to a number of local wants that required attention. He also considered that the commercial interests of Nanaimo had suffered from neglect. According to Mr. Dun can, the Missionary on the northwest coast there were \$5,000 Indians north of Nanaimo the trade with whom if properly managed,

put forward by Mr. King as being of the most preposterous character—the learned gentleman had in fact told him (Mr. Cunningham) that he had come up to Nanaimo to look after the interests of the Wharf street merchants of Victoria. (Laughter.) Now he thought Nanaimo had already suffered enough by the Wharf street policy, and he was of opinion that its inhabitants had better look after their own interests. had better look after their own interests. With regard to Mr. Ring's claims to having given Nanaimo its port of entry, he could only say that the port of entry bill lay on the table of the Upper House for about a year, during a portion of which time Mr. Ring filled the office of Attorney General. In conclusion he would say that he would appear if returned a general manifest. support, if returned, a general municipal scheme that would give to every settlement on the Island the benefits of local self-gov-

on the Island the benefits of local self-government, when the Inhabitants themselves thought municipal institutions necessary. (Loud applause.)

Mr. Iting then rose and said that his claims to the suffrages of the Nanaimo people had been very much misrepresented. The very address which had been presented to Mr. Cunningham and signed by a number of citizens was based on untruths; for it said that Nanaimo had never been, in reality, represented. He, there, defied anyone to said that Nanaimo had never been, in reality, represented. He, taere, defied anyone to say that the interests of Nanaimo had not been represented during the period he had the honor to sit in the House (hear, hear). It was through his exertions that the port of entry bill became law. He fought for that measure vigorously and uncasained, and tracks. neasure vigorously and unceasingly, and was as vigorously and unceasingly opposed—every effort in fact was made to thwart him, but his exertions were ultimately crowned with success. He was not, however, Attorney-Gen-eral then. He also introduced a Small Debts eral then. He also introduced a Small Debts bill, and it was not his fault that it did not pass. There were various other measures for the benefit of Nanaimo and the country generally which were initiated by him. He had, also, during the time he represented Na-naimo, been always ready to see and assist his constitution when they core to Victoria his constituents when they came to Victoria, and, in fact, had labored hard for the benefit

and, in fact, and labored nard for the benefit of the town. He oftentimes was obliged to neglect his professional duties fer his political ones, and frequently worked himself to the injury of his health for the sake of his Nanaimo constituents, and yet he was told Nanaimo never had been represented. He was given the gorldones who had not held sure the gentlemen who had put their names to Mr. Cunningham's address did so under

The Columbian states that the contract for constructing a wagon road to Savana's Ferry, was awarded to Mr. G. B. Wright yesterday, and the proposal of Capt. Irving to place a steamer upon Kamloops and Shawap lakes, was accepted on the same day. In the absence of official information, we believe we are substantially correct in stating that the wagon road will leave the present highway at Cache Creek, and is to be completed by the list of April. The steamer will be about the size of the Onward, and will be ready for sea on or about the 15th of May. The Government of the country and wrong in his facts about the commercial condition of the country and wrong in his facts about the commercial condition. THE CONTRACTS FOR THE BIG BEND ROAD. fallacies were speedily made apparent.

The Columbian states that the contract for The Columbian states that the contract for size of the Onward, and will be ready for sea on or about the 15th of May. The Government gives no monopoly, but simply pays Capt. Irving \$400 a month, as a subsidy for carrying the mails. It is to be deeply regretted that the steamer could not have been got ready a month or six weeks earlier; but that cannot be helped now. We congratulate the government upon three things, viz.; getting both these important enterprises into good hands, starting the wagon road from the right point, and avoiding a monopoly in the navigation of these inland waters. Mr. Wright is just the man to push the road through in the told Mr. Cunningham was that he want on push the road through in the told Mr. Cunningham was that he want on push the road through in the lossed justice done the Wharf street mer-lank, and not chained

some mistake. He, however, believed that by pretecting the interests of Wharf street he was protecting the interest of the colony. He maintained that free port principles were the true ones. Free port and free trade in his opinion were synonymous. With regard to union the question was settled; and here he might say his opponents while demanding changes in the policy of Vancouver Island so soon as union took place looked upon British Columbia laws as the laws of the Medes and Persians that could not be altered. (Laughter.) He believed that the necessaries of life should be untaxed. If it was found however necessary to make some was protecting the interest of the colony

was found however necessary to make some alteration in the fiscal system let it be a subatteration in the fiscal system let it be a sub-ordinate policy to the principles of free trade, and let duties be levied only for the purpose of raising revenue. To tax cattle and other necessaries of life to benefit the farmer was like pulling a man forward with one hand and knocking him down with the other (Laughter) He desired to see the English laws applied in every nossible case to (Laughter.) He desired to see the English laws applied in every possible case to the celeny. The politicians in the House as represented by the Colonist, and who seemrepresented by the Colonier, and who seemed to have got hold of legislative power knew nothing about the science of legislation, and were remarkable, like the soap bubbles blown by boys, for nothing but their rotundity and emptiness. (Laughter.) He thought their actions mischievous, and to a certain extent disloyal. Men rose up in the Legislature and insulted the Queen and no one came forward to resent it. Then when the interests of Nanaimo were neclected—when the courses of the course o interests of Nanaimo were neglected—when the late member was sick—the House took no notice of Nanaimo and wilfully left its interests to be neglected. Even when no notice of Nanaimo and wilfully left its interests to be neglected. Even when the benefits of the Hog and Goat Bill were asked to be extended to Nanaimo the measure was refused, and the farmers' interests seriously injured.

would do him the honor to

would do him the nonor to return him (applause).

As Mr. Franklyn was about to take a show of hands loud cries were made for Mr. McClure of Victoria. Mr. Ring protested against any more speaking, and called upon the returning officer to take the show of hands, which was done, resulting largely in favor of Mr. Cunningham. The cries for Mr. McClure being repeated. Mr. Franklyn of McClure being repeated. Mr. Franklyn of fered the gentleman in question every facility, fered the gentleman in question every facility,

he did not come there to say anything disre-spectful against Mr. Ring, for whom person-ally he had a very high regard; but from some remarks which had just fallen from the some remarks which had just fallen from the learned gentleman on political matters he thought it only right that the opposite side of the picture should be given (hear, hear). Mr. Ring had indulged very largely in aspersions on the Liberal members of the House of Assembly, alluding to them as men who were doing no end of mischief, and exhibiting a woeful lack of scientific legislation (laughter). What the learned gentleman meant by scientific legislation would be difficult to say, but if he (Mr. McClure) might judge by inference from Mr. Ring's speech, it meant all the crudest ideas on political economy being put into a sausage machine of and turned out by the yard—Imperial measure (laughter). Or it meant forcing o ure (laughter). Or it meant forcing or suit of legislative clothes on every country, be it large or small, old or young. He took the liberty, however, of informing the learned the theory, noweer, of informing the learned beginning that the system would not work—that the culy legislation that would benefit and build up a country was the legislation that represented the wants of the community, and that could only be obtained by giving the people every facility for expressing their opinions (hear, hear). Mr. Ring's scientific opinions (hear, hear). quired attention. He also considered that the commercial interests of Nanamo had suffered from neglect. According to Mr. Duo can, the Missionary on the northwest coast there were 50,000 indians north of Nanaimo the trade with whom if properly managed, would be worth to Nanaimo \$1,500,000 at year. The speaker then alluded to the claims put forward by Mr. Ring as being of the most preposterous character—the learned gentleman had in fact told him (Mr. Cunningham) that he had come up to Nanaimo to look after the interests of the Wharf street merchants of Victoria. (Laughter). It said in one breath that legislation for any particular class or community and that could only be obtained by giving the popular opinions (hear, hear). Mr. Ring's scientific pointons (hear, hear). Mr. Ring tected at all hazards. It maintained that both colonies should be united, but while insisting that the British Columbian policy was not like the laws of the Medes and Persuans but could be altered, declared that the fiscal policy of Vancouver Island was unchangeable. The fact was the gentlem us's scientific knowledge simply meant ignorance of political economy. It was scarcely necessary for him (Mr. MrClure) to show to the audience before him the absurdity of the idea of union and free port—the thing had been done so often in other places; nor was it necessary to show how much evil even in necessary to show how much evil even necessary to show how much evil even in commercial transactions the free port had done, by first inducing large and indiscriminate consignments of English and other goods altogether independent of the legitimate demand; by then attempting to get rid of the goods at any cost and risking them on long credits, and finally by creating a gambling spirit amongst the commission merchants and traders ending ultimately, on the partial failure of the mines, in general bankpartial failure of the mines, in general bank-ruptcy. (Hear, hear.) When Mr. Ring's criticism on the Assembly and their acts was analysed, the learned gentleman was found to be equally incorrect. Never since the colony had representative institutions had it got so practical, so liberal, so progressive a House of Assembly as now. Never before two streets as working majority willing the committee on Reconstruction is House of Assembly as now. Never before was there a working majority willing to carry out the wishes of the people of the country and determined to inaugurate useful measures (applause). To say that the very the country and termined to inaugurate useful measures (applause). To say that the very the country and termined to inaugurate useful measures (applause). To say that the very the country and termined to inaugurate useful measures (applause). was there a working majority willing to carry out the wishes of the people of the country and determined to inaugurate used measures (applause). To say that the vegetable and cattle permits had increased the price of the necessaries of life was simply absurd. The impost on vegetables had induced the farmers to cultivate much larger tops than heretofore, thus enabling them to soll, as they do, cheaper than at any previous period (hear, hear). The cattle tax was equally misunderstood by Mr. Ring. When that tax was imposed, a deficit in the estimated revenue had to be met, and it mattered that tax was imposed on beel or on dry goods, the amount had to be raised; the country, and this it was found could better be done by making it a cattle permit. To oome, however, to Mr. Ring's claims on the Nansimo people. The learned gentleman had told them that had, after being optimication.

gration of these inland waters. Mr. Wright is just the man to push the road through in the shortest possible time, while Capt. Irving will do all that enterprise and energy can accomplish in bringing out a good steamer at the earliest possible day; and when affoat it could not be in better hands. Capt. Irving goes down to Victoria this morning to make arrangements for the machinery.

New Billiam Saloon—The Alhambra, at the corner of Yates and Government streets, was opened on Saturday night and successions mistake. He, however, believed that dress must be some mistake. He, however, believed that dress the audience, but with the glad consciousness that he was a free mas, and not chained to sep day and soul to an exacting constituency. [Laughter]. He would, therefore, ask them body and soul to an exacting constituency. [Laughter]. He would, therefore, ask them body and soul to an exacting constituency. [Laughter]. He would, therefore, ask them body and soul to an exacting constituency. [Laughter]. —there was not much danger of that gentlement and in the semination. —The would not be so seriously affected. [Laughter].

Mr. Cunningham—You teld me distinctly that you wanted to look after the interests of individual members of the committee of the Whaff street merchants (laughter).

Mr. Ring contended that there must be some mistake. He, however, believed that dress the audience, but after making every effort in vain to induce the audience to stay, was at length obliged to put on his ha and leave with the crowd

THE POLL.

The poll commenced the following day a twelve o'clock, but at ten minutes past three Mr. Ring finding that his opponent was 14 and himself but 6, came forward and in a neat speech, thanking all parties, resigned. He said that he could, if necessary, get four or five more votes, but as Mr. Cunningham could also make additions to his number, he would not prolong what would be a useless contest. Three cheers were given for Mr. Ring, after which the returning officer added and Mr. Cheningham duly selected. declared Mr. Cunningham duly electedtatement which was received with great ex ultation. Three cheers were then given for the Queen, and the concourse left, escort-ing Mr. McClure to the steamer and giving three cheers for that gentleman, as well as three cheers for that gentleman, as a another round of huzzas for Mr. Ring.

Commander Porcher we are in receipt of San Francisco papers to the 18th-

The Canadians claim to have evidence of meditated Fenian uprising, having for its object nothing less than the subversion of Government and the inauguration of an Irish regime. In view of the alarming threats the military are being called out and sent to the front. The Montreal Transcript of No-

the front. The Montreal Transcript of No-vember 25th says;

"At 3½ o'clock yesterday afternoon, a company of the Chasseurs Canadiens, des tined for service on the frontier, were in-spected in the City Concert Ball. The inspected in the City Concert Hall. The inspection was conducted by Col. Macdougal Actutant-General; Colonel Dyde, Commandant; Lieutenant - Colonel George Smith, Deputy Adjutant-General, and Brigade-Major Macpherson. The company numbers 65 men, under the command of Major Cinquars, Lieutenant Labranche, and Lieutenant D'Orsonoens, who is acting as ensign. The men made a very creditable appearance. No manceuvres were executed as . No manageures were executed as inspection lasted only a few minutes. The company will be inspected at noon to-day in the armory, Victoria square, when the men will appear in complete uniform and in marching order. They will also be mustered into service and be placed under pay from this day. Their destination is Nagara.

Nagara.
Toronto and its environs are picketted with regulars and volunteers, and everything kept in readiness for a conflict.

MECHANICS' LITERARY IN. STITUTE

A very reasonable and seasonable appeal

used to increase the number of volumes on overlooked : Owing to the want of prothe shelves, adapted either for reference, or circulation amongst the members. Apart contending against water and the laten om the valuable results arising from a wide spread diffusion of knawledge, and the creation of more elevated tastes amongst the eople at large, to say nothing of the humanizing influence of literature, it is clearly our interest to aid in rendering Victoria attractive as permanent winter quarters for our migras tory mining population. Miners, as a class re the most intelligent people on the Pacific Coast, and we are bound to consult their inerest in such matters. We therefore strennonsly urge the following recommendations of the Committee upon the attention of our Gold River, above French Creek; but

The Committee of Management invite the attention of their fellow townsmen to the operations of this institution, believing that a better knowledge of its affairs. -what it is doing and what it still wants -will secure a more extended support than it has hitherto received, and they avail themselves of the approaching season when liberality and gifts are in avail themselves of eralogy, or other resources of the country.

and of others through them, can hardly The reading room is well supplied with the best periodicals and largely attended by the members. The elecution and de to Mr. Cunningham's address did so under misconceptions, and he hoped after what he had said they would rotract their promises; for promises were rull and void when deception was used. The learned gentleman then attacked the Cuonists for attempting to misc lead the Nanaimo people by sophistries and mistatements. Thundering articles dressed up in high-sounding phraseology might read well enough and deceive the simple, but when they were carefully analyzed, their bating classes are increasing steadily in interest and influence, and are proving to classes, is open for conversation and smok- day they worked.

But the Committee of Management

its other advantages, and the committee are exceedingly anxious that the inhabit-ants of Victoria should do what is easily within their power, viz :- create a library at once which shall be worthy of their

name and of their liberality.

During the Christmas week a portion of the Committee will wait upon as many of The much respected Judge Shepheard of the Police Court, San Francisco, died on the Police Court, San Francisco, and the court is hoped that every one of the 270 members will devote a day or two the 270 members will devote a day or two of the Christmas week to the interests of or reduce the standard of a day's labor to like the standard of a day a d or by begging from his friends get 5 or 10 useful volumes, or the money that will buy

of the library are in greatest demand. The committee have decided to admit

LATER FROM BIG BEND.

(From the Columbian.)

A party consisting of H. P. Nind $E^sq.$, and Mrs Nind, R. T. Smith $E^sq.$, and several others arrived in this city on Wednesday night. The party came as far as Langley in a canoe, and made their way the rest of the road as best they could through the woods, Mrs. Nind displaying an amazing amount of fortitude and en durance under the extreme difficulties of ourney calculated to test the resources of the sterner sex. They met with no ice of consequence until Langley was reached, where they concluded to aban don their canoe and betake themselves

to terra firma.

Mr. Smith, who has just come from Big Bend mines where he has been for some time acting as Gold Commisioner and has consequently enjoyed an excellent opportunity of obtaining correct informaon, has been kind enough to furnish us with the following items of news: The weather up to the time. Mr. Smith left, (the 24th Nov.) had been very mild, and and there was not more than three inches of snow on the river banks. He made the trip over to the head of Lake Shi in two days, meeting with 41 feet of snow on the summit. Previous to leaving the diggins Mr. Smith had about 4000 lbs of beef salted down, and about 1000 lbs frozen for more immediate use.

A new creek, had just been discovered by George Camp & Co., of Yale, empty-ng into Gold river, about 4 miles below McCulloch's Creek, and on which pros pects were obtained of one dollar to the pan : but the season was too far advanced to work. This creek has been named "Camp Creek," after the discoverer.

Mr. Smith gives the amount of gold

known to have been taken out as follows -French Creek, \$32,000 ; McCulloch's Creek, \$2700; Cann's Creek, \$3000 Total \$37,700. These figures may appear small, but it must be reccollected that with a Gold Export Tax in force, so near to the American frontier, the Gold Commissioner would not be very likely to A very reasonable and seasonable appeal has been issued, on behalf of the Literary Association in this city. In the absence of any Government public library it is of the utmost importance that every effort should be the case that ought not to be feature of the case that ought not to be visions and implements, the difficulty of of the season at which nearly all the claims were prespected, whatever gold has been taken out may fairly be ro ed as the result of two week's work for

fifty men. The Clemens Co., (The Discovery Co.) on McCulloch's Creek took out, in eight working days, with three men, an average of twenty ounces per day. The most taken out in one pan of dirt was \$105 and the largest piece weighed one andhalf ounces. Good prospects have been obtained on several creeks emptying into was too late to commence of erations, and the claims were laid over till spring.

Mr. Smith expresses the utmost confi dence in the richness of the diggins already great breadth of rich ground yet untrodder by human foot ,or undisturbed by the pick and shovel of the prospector. There were about 25 men on the different creek most of whom would winter there.

order, to make an earnest appeal for contributions in money or books for the hbrary, or of objects for the cabinet, illustrating the natural history, geology, mincy, or other resources of the country, not only will supplies be run in during the efficiency of the Institute, in most winter, but there will be no obstruction of its departments, is now nearly all that could be desired, and its usefluness in promoting the improvement of its members, so that foot passengers and pack animal be estimated. The new suite of rooms is commodious and comfortably furnished

LATER.

Passengers who arrived by the Enterbe excellent preparatory schools for more important work. The room, which on satisfactory news from Big Bend, confirming Monday and Thursday evenings is devoted all previously received. The Discovery comto the use of the elecution and debating pany took out over thirty ounces the last

> FROM KOOTENAY the news also continues to be satisfactory;

FROM YALE, -- Mr. Grant, of Soda Creek, and a number of others at New Westminster from Yale in a canoe on Monday. They met with no e till reaching Harrisonmouth. Mr. R. Smith, of the firm of Smith & Ladner, ad arrived at Lytton from the Big Bend ountry. Mr. Smith spoke in the most mines. He reported the discovery of a new creek, which prospected well. The njury to the roads above Yale had been so far repaired as to render traffic easy, and teams were passing over the road between Yale and Lytton. The bridge at Boston Bar had been re-built.

FIRE IN NEW WESTMINSTER .-- About 2 o'clock on Tuesday morning a fire broke out on the second floor of Millard's ston ouilding on Columbia street. Hyacks were on hand very promptly, and the fire was soon extinguished. It ap-pears that there had been a ball in the lower part, and the fire had communicated with some of the joists which appear to have been too near to the flue, and the whole very imperfectly constructed. Two flues were in use and the fire communi cated similarly from both with the wood work, so that both sides of the room were on fire at the same time. The room on the second floor where the fire was is that Trinity Church, so recently driven from their own place of worship by fire. Considerable damage was done to the furnish ngs and fixtures, but the place will prob ably be sufficiently repaired to render it available for Bunday. The damage to the building is roughly estimated \$1000 and we understand the Hon. C. Brew who holds a mortgage upon it for \$10,000 has an insurance effected to tha mount .- Columbian.

Custom Receipts at New Westminster for week ending Saturday, Dec. 16th:—
Duties, (import) £253 14s. 11d.; (export) £340 14s 3d.; Harbor Dues, £15 3s 10d.; Head Money, £9 16s. 0d.; Tomage Dues, £49 12s. 0d. Total, £669 s. 0d.

Holloway's Ointment and Pills-These Holloway's Ointment and Pills—These potent remedies constitute a materia medica in themselves, for there is no 'r ternal or external disorder cont. Oilable by mecLine for which the one or the other of them is not a positive remedy—cruptions, tumors, scrofula, scurvy, cancer, asthma, rheumatism, gout, and dropsy cutiety subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

Holloway's Pills and Ointment—Billousnes.—Dyspepsia.—There is no organ in the human body so liable to derangement as the liver. Food, fatigue, climate, and anxiety, all dinorder its action, and renders its secretion—the bilemore or less depraved, superabundant, or scantly. The first symptoms should receive attention. A pain in the side, or the top of the shoulder, a harsh cough and difficulty of breathing, are signs of liver discase, which are removed without delay, by friction with Holloway's Ointment. The Pills should also be taken early. For all diseases of this vital organ, the action of these conjoined remedies is a specific, by checking the over supply of bile, regulating its secretion and giving nervous tone.

Holloway's Ointment and Pills-Jaundice MOLLOWAY SOINTMENT AND TIME - MANAGEMENT AND ately sets in, and sallowness or jaundice marks the cause to be in the liver. This important organ, so liable to disorder, can always be regulated by Holloway's Ointment and Pills. The former, rubbed on the right side, over the region of the liver, upon which it exercises the most salutary influence, without harassing the atomach or the bowels—a matter frequently of vital importance—confers on this remedy an advantage over every other form of medicine in the pharmacoposia; when assisted by the Pills, every disease is speedily subjected and effectually banished

not loway's Pills and Ointment.—Influence, Colds.—In diseases of the throat and chest, a prevalent in this country, nothing so speedily relieves or so certainly curos as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case. in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the aizmring symptoms till the blood is purified and Nature consumates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generatly; the fluids are regenerated, morbide matter is expelled, and a happy revolution occurs throughout the system.

Holloway's Ointment.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this continuent strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long trues the little sufferer, whose very cry excites each bystander's compassion and pierces the particular to the scald transport of the property of the p

Holloway's Ointment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure resorted to. In litolloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellowsly quick, and perseverance in the steady application of his noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excitations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration. plying this Ointment after fomentation with war

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is optimized. They are equally effleacious in the cure of tumours, burns, scalds, glandular swellings, interous wounds, theumatism, contracted and stiff joints. These medicipes operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

ARE THE BEST PURGATIVE PILLS.
NO STRAINING.

NO FALSE CALLS TO THE WATER CLOSET. BUT A BRISK AND THOROUGH EVACUATION FROM THE BOWELS IS ALWAYS SECURED.

IS ALWAYS SECURED.

Newly Discovered Principles in Purgatives.

Dr. Radway's Pills are the best Purgative Pills in the world, and the only Vegetable Substitute for Calomel or Heroury ever discovered. They are composed of VEGETABLE EXTEL. CTS FIROM ROOTS, HERBS. PLANTS, GUMS. SEEDS, FLOWERS, BARKS, FRUITS AND WEEDS, PREPARED IN VACUO. One grain of the extract of the tredicinal properties Radway's Pills, possess a greater curative power over asset than a thousand of the crude and intert instert is started into all other pills in use. These Pills are composed the active medicinal properties of the Rost, Herbs, Net Flowers, Goins, &c. of which they are composed. One will prove their superiority to all other pills. They PURGE, CLEANSE, PURIFY, HEAL,

SOOTHE, CALM, STRENGTHEN,

And REGULATE THE SYSTEM. Their Great Combinations AS EVACUANTS

AS EVACUANTS.

N. B.—Every Agent has been furnished with fresh and some made Pills. As each box is encised with a story taken the property of Holloway's Ointmeyr and Pills.—The family medical chest that is furnished with those powerful remedies needs nothing more. Indigestion, general dibility, liver compliant, eruptions, sores, wounds, ulcers, tumours, &c., are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, are cure is speedy, thorough, and permanent. Those medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

are efficacious.

Holloway's Pills.—No family should be without those pills.—Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engrged spleen, clense the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they incallibly correct fosmale complaints in young and old, delicate and robust.

complaints in young and old, delicate and robust.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OINTMENT AND PILLS—Again.

fluence of the Pills.

HOLOWAY'S OINTMENT AND PILLS—Acute Rhemmatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these sen plaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerver, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the sonsequences of dyspepsia or indigestion. The Pills soon give tone to the stonach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evile, and is so ecommon, so universal a complaint, that it is a great blessing that such a remedy as the invaluable medicine should have been discovered. Mo one need long suffor from indigestion with these Pills at nand.
